

### **Who Are We?**

We are a multi-generational, multi-cultural community of Unitarian Universalists who are spiritually nurtured by our relationship with Earth and who choose to offer the gifts of our love, our time, our energy, and our resources to build a just and enduring Earth home.

### **Our Mission**

To inspire, facilitate, and support personal, congregational, and denominational practices that honor and sustain the Earth and all beings.

### **Our Values**

- We are grounded in faith and spirituality. We affirm and promote the seven principles of Unitarian Universalism as well as the proposed 8th principle of Unitarian Universalism, and we understand climate justice to be a moral imperative.
- We are grounded in environmental justice. We affirm and promote the framework of race- and class-informed environmental justice and strive to center the leadership and needs of frontline communities.
- We are grounded in partnership and collective action. We know that individual consumption choices are not enough; it is only through partnership and collective action that we can save our biosphere.
